Biography

Dr. Champagne is a first-year part-time clinical educator fellow at the Centre for Health Education Scholarship (CHES). She is also an infant/preschool psychiatrist working at the Early Childhood Mental Health Program at Richmond Hospital and a Clinical Instructor at UBC.

She obtained her medical degree at McGill University in 2008. She went on to complete her Psychiatry Residency in 2013, followed by her Child and Adolescent Subspecialty Training, both at University of Ottawa, before running away from the cold winters in 2014 to settle in BC. She is currently enrolled in the Master of Health Professions Education program at Maastricht University. She has an interest in educational leadership and has participated in several leadership courses and programs.
